Date: 6/12/13

The Honorable Vincenti Pedro, Sr.
Governor, Pueblo of Laguna
P. O. Box 194
Laguna, New Mexico 87026

Dear Governor Pedro:

This is in reference to your letter of April 17, 1984 requesting continued assistance from our Division in maintaining an air quality monitor in Paguate. I agree with you that the continued operation of this monitor is important during the reclamation of the Jackpile-Paguate open pit uranium mine.

The Air Quality Bureau will continue to calibrate the monitor and supply Mr. Phil Sarracino the necessary materials to operate the monitor until the reclamation of the mine is complete. At that time, the site will be re-evaluated and a decision whether to continue to operate it will be made.

Sincerely,

Craig F. Eberhart

Craig Eberhart, Program Manager
Control Strategy and Ambient Monitoring Section
